## CROYDON, SURREY

The Recast Tenor (30 cwt.) at  
ROCHESTER CATHEDRAL.  
New Ring of Ten opened May 14th, 1921

**BELLS,  
CARILLONS,  
CLOCK S.**

### THE PEALS ANALYSIS.

The labours of the Peals Analysis Committee of the Central Council for more than a year past will be found concentrated in the tables and report which we print in this issue, and will provide our readers, not only with a fund of information, but with material for much study, if they would compare what was done in peal ringing in 1923 with the results of 1922. These annual statistics, with the commentary of the report, are full of interest to the ringer who has any more than a purely selfish interest in peal ringing. They are a useful index to the progress made in the art, by individual societies as well as by the Exercise as a whole, for, while the principal duty of ringers is in connection with the services of the church, it cannot be denied that peal ringing is one of the best indications of their capabilities.

This analysis, which was originally privately published, has been officially compiled by the Central Council for many years past, and, to those gentlemen responsible for the actual work, the Exercise is greatly indebted, for the labour involved is really colossal. It is spread right over the year during which the peals are rung and through the months which follow, for the final tabulation cannot, of course, be completed until the last of the records has appeared. We doubt if any but those who have actually taken part in the work can fully realise all that is involved in the task, and it is fortunate for the Exercise that the Central Council can find men able and willing to devote so much time to this matter. And not only is it a question of giving the necessary time. Infinite pains are required in the sorting out of details, for without accuracy the analysis would be useless. The report is itself a monument to the Committee's work, and the records of the Exercise would be much less complete without it.

It is impossible here to touch on the many points of interest which are revealed in the analysis, but it is pleasing to be able to note that, reckoned in points, the peals rung show an increase in the quality of the methods. It is a singular fact that the number of peals was exactly the same as in the preceding year. The aggregate of points is, however, 31,538, against 30,362 in 1922, and the average per peal is thus increased from 16.1 to 16.736. Twelve-bell peals have increased, but there was a falling off in the number of ten-bell peals by no fewer than 36, and while Surprise peals on ten and twelve bells are down by 12, Surprise Major peals have leapt up by no fewer than 39. On the other hand, comparing the figures with

(Continued on page 322.)

# BELLS! BELLS! BELLS!

Let the Music of the Bells celebrate Peace.

## CHARLES CARR, LTD.

The OLD-ESTABLISHED firm of Bellfounders,

are now prepared to execute orders for all kinds of Bells, singly or in rings. Their foundry is equipped with every modern appliance for the manufacture of Bells of any size, weight or note, all their Bells being moulded and cast on scientific principles; while their knowledge of the 'Chemistry of Metals' enables them to produce that fine quality of Tone so much desired by all lovers of Bell Music.

In their finishing and fitting shops they have installed the most 'up-to-date' Tools and Machinery for the making of Bell Frames and Fittings, so that they are in a position to carry out the complete installation of Peals of Bells for Churches, or Sets of Chimes for Public Clocks, etc.

**SPECIAL ATTENTION GIVEN TO THE RECASTING AND REHANGING OF EXISTING PEAL.**

Orders may be placed now for delivery at a future date to suit the convenience of clients.

**ALL MATERIALS CHEMICALLY AND MECHANICALLY TESTED.**

Catalogue and Book of Testimonials post free on application

**THE WOODLANDS BELL  
AND BRASS FOUNDRY,  
SMETHWICK, BIRMINGHAM.**

ESTABLISHED 1780.

## JOHN NICOLL,

**Church Bell Rope and Clock Rope  
Manufacturer.**

**60, QUEEN'S ROAD, PECKHAM, LONDON, S.E.**

(Two minutes from Queen's Road Station, L.B.&S.C. Railway).

**Late 185, Keeton's Road, Bermondsey.**

Makers to St. Paul's Cathedral, Westminster Abbey, Imperial Institute, Canterbury, Edinburgh, St. Albans, Lincoln, Durham, Peterborough, Melbourne (Australia), Rochester, Dublin St. Patrick's, Manchester and Worcester Cathedrals, etc.

those of 1922, these Surprise Major methods were rung by only 25 associations, whereas the lower number of the previous year was spread over 29 societies. This seems to be the least encouraging feature of the year's peal ringing, but in most respects the analysis fully justifies the Committee's comment that, in view of the general conditions which have prevailed, the Exercise is in a very healthy condition.

### TWELVE BELL PEAL.

MACCLESFIELD, CHESHIRE.

THE CHESTER DIOCESAN GUILD AND THE ASHTON-UNDER-LYNE SOCIETY.

On Saturday, May 17, 1924, in Three Hours and Fifty-Eight Minutes,

**THOS. J. GROOMBRIDGE**

Church Bell Hanger,

CRAYFORD, KENT.

ESTIMATES SUBMITTED FOR NEW OR REPAIR WORK

**SPliced SURPRISE MAJOR.**

**A PEAL OF CAMBRIDGE AND SUPERLATIVE.**

MR. J. W. PARKER'S REMARKABLE PRODUCTION.

Ever since the possibility of splicing methods has been realised, composers have sought to join up the Surprise Major methods, but without success; indeed it was generally considered that the falseness which must occur would inevitably preclude any true peal in, at any rate, the old and best known methods.

But even this field of what many thought to be fruitless research has at length been conquered, and once again the Exercise owes another forward step in the practice of change ringing to the genius of Mr. Joseph W. Parker, of Sunderland, who only a few weeks ago published in our columns an article showing how peals combining Stedman and Erin Triples could be obtained in symmetrical courses.

Mr. Parker has opened up a new phase in ringing, and in obtaining a peal of Spliced Surprise Major has given not only ringers, but composers, something to think about. To get this peal he has not had to find two methods with clean proof scales, but has spliced together Cambridge and Superlative! Both methods are rung in every course; neither method is exclusively used at any particular lead, although it will be seen that Cambridge is rung mostly in the first three leads, and Superlative in the last three, and what strikes us as being remarkable is that the peal is made up of exactly the same number of changes from each method.

The peal has been rung by the Whitley Bay band, who are to be congratulated upon having added one more to their many successes, and it is quite certain that if other bands take up this advanced form of method ringing they will find in it something that will tax their capabilities, and, we imagine, add to the interest of their peals.

The leads in each course

		to be rung as	
		Cambridge	Superlative
5056			
23456	M W H		
42356	— — —	123	4567
65324	— — —	123	7 456
43526	— — —	123	4567
54326	— — —	123	4567
35426	— — —	123	4567
45623	— — —	1234	7 56
36524	— — —	1234	567
53624	— — —	1234	567
62534	— — —	1234	7 56
45236	— — —	123	4567
24536	— — —	123	4567
52436	— — —	123	4567
42635	— — —	12345	7 6
56234	— — —	1234	567
25634	— — —	1234	567
63254	— — —	1234	67 5
26354	— — —	12	34567
32654	— — —	1	234567
32546	Before	12	67 (come 3 & 4)
53246	— — —	123	4567
25346	— — —	123	4567
34256	— — —	123	4567
23456	— — —	23	1 4567

The leads as shown give 2528 of each method. The 4th leads may be rung in either method, but all the others must be strictly adhered to, or falseness will occur.

The composition also runs true to Superlative only, but not Cambridge.

First rung as printed above at St. Paul's Church, Whitley Bay, conducted by J. A. Gofton.

**TERLING BELLS REHUNG.**

The beautiful old peal of five bells in the Church of All Saints, Terling, Essex, have been rehung by Mr. Alfred Bowell, of Ipswich. The work has been admirably carried out. It was proposed to add a new treble bell to make a ring of six, and it is a great pity that funds were not forthcoming to carry out the whole work. Mr. Bowell has, however, so rehung the existing five bells that a new treble bell can be easily added, and it is hoped this will be done in the near future.

**NOISY RINGING CHAMBERS.**

To the Editor.

Dear Sir,—After our bells were recast a few years ago we had the same trouble as your correspondent, viz., too much noise; in fact, we could not hear the bobs called unless we put wadding in our ears. We have had this altered in a way I can recommend, by having a new floor put in 18 inches below the old one. The material used is 3-ply oak about 1/4-inch thick put together in panels about 4ft. square, and covered on top with sound proof felt about 1/4-inch thick. This has made a very satisfactory job, and looks well. Our tenor is 25 1/2 cwt., and the ringing chamber is about 20ft. by 18ft. by about 18ft. high. I think that to leave the air space between the floors does more to reduce the sound than filling it up with wool.—Yours faithfully,  
J. H. BFD.

**GLOUCESTER AND BRISTOL DIOCESAN ASSOCIATION. SUPPORT OF THE CLERGY.**

The annual meeting of Gloucester and Bristol Diocesan Association was held at Swindon on May 10th. The beautiful toned peal of ten at Christ Church recently opened were available from 1 p.m. until 4 p.m., and made full use of.

The management committee meeting was held at the King's Arms Hotel in the afternoon, after which a service was held at the Parish Church, conducted by the Rev. Bodycomb, in the absence, through ill-health, of the Vicar (Canon Mayall). The address was given by the Vice-President (the Ven. the Archdeacon of Swindon), who made reference to the great and successful effort of Mr. E. Bishop in raising funds for the new bells at the Parish Church.

Tea was prepared at the King's Arms Hotel, and 72 sat down, including five clergy.

At the business meeting which followed, the balance sheet was unanimously adopted, and its completion in time for that meeting was a pleasing feature.

All the officers were re-elected, and the remaining business successfully carried through.

A vote of thanks to the Ven. Archdeacon of Swindon for attending the meeting was proposed, and carried unanimously, and in response, the Ven. Archdeacon stated that he was agreeably surprised at the remarkably businesslike way in which the association was conducted. He was very glad to have been with them that day.

Votes of thanks to the Rev. Bodycombe, the organist, Mr. E. Bishop and Mr. Hearn, concluded the business.

The next annual meeting is to be held at Tewkesbury on Easter Monday, 1925.

**THE SHERWOOD YOUTHS. REVIVAL OF AN OLD SOCIETY.**

An inaugural meeting of the Society of Sherwood Youths was held at the Albert Hotel, Nottingham, on Saturday evening, and attended by a number of Nottingham and district ringers. The meeting was presided over by Mr. A. Coppock, local vice-president of the M.C.A., supported by Mr. F. Blood, hon. local secretary, M.C.A., and representatives from St. Mary and St. Peter's, Nottingham; Beeston, Ilkeston and Cotgrave.

The Chairman, in opening the meeting, explained that the idea was to revive the old society in order to keep green the memory of the late William Doubleday Crofts, to provide a meeting-place for social intercourse and handbell ringing, and to encourage combined practices in the district.

On being put to the meeting, it was unanimously decided to form the society. The election of officers then resulted as follows: Master, Mr. A. Coppock; hon. secretary, Mr. F. Blood; treasurer, Mr. W. A. Jones; steward, Mr. F. W. Bailey.

The place of meeting and amount of the subscription were then considered, and suggestions made as to how the society can be made of benefit to the district.

Eventually these details were left in the hands of the committee to discuss and draft rules, etc., and report at the next meeting.

Several touches were afterwards rung upon handbells, the meeting altogether being a success. It is hoped soon to attempt a peal at St. Mary's Church, Nottingham, where the late W. D. Crofts was the leader.

**THE PEAL AT THE IMPERIAL INSTITUTE.**

To the Editor.

Sir,—Referring to the above peal, and to Mr. Frank Smith's letter in this week's paper, his right to represent the county of Middlesex in the peal has not been questioned, and is not likely to be as far as I am concerned.

But whatever he may have been asked when he received his invitation to ring does not appear to me to matter, seeing that the official record of the peal shows him to represent the Middlesex County Association. That it was the intention that ringers in the peal should represent associations is proved by the fact that one member of the band was elected to the Sussex Association before starting for the peal (as stated on page 281 of 'The Ringing World' for May 2nd), and also because that particular ringer does not live in Sussex, and could not, therefore, represent that county.—Yours faithfully,  
C. T. COLES, Joint Hon. Sec., Middlesex County Association.

P.S.—It would be interesting to know, quite apart from the above, if it is in order to elect a ringer to membership of an association, prior to starting for a peal for another association.

**LADIES' GUILD.**

An enjoyable practice of the Western District was held on Saturday at Coalpit Heath. The bells, a new ring of six by Taylor, of Loughborough, went beautifully, and touches of Grandsire and Stedman Doubles and Rob Minor were rung.

At the invitation of the Vicar, a party of twelve sat down to an excellent tea. Members will be notified of the arrangements for the annual meeting in July.

**SECURITY OF TENURE.***To the Editor.*

Sir,—The above seems better as a heading for the subject of which your excellent article on May 16th deals than 'Strikes and Lock-outs.' It not only sounds better, but it defines the point on which both ringers and clergy desire assurance.

As such an assurance is at least as much a benefit to the parish priest as to any individual ringer, I do not share your doubt as to our being able to include the clergy in such a scheme as you propose.

Supposing every association printed the following note at the end of their rules:—

**SECURITY OF TENURE.**—No ringer likes to feel that he may be excluded from the practice of an art to which he has devoted much time and labour. On the other hand, no parish priest would like to find that some Sunday the accustomed ringing was omitted, morning or evening.

Therefore, everyone who joins this association, ringer or clergyman, pledges himself by so doing, not to take any action which would interfere with the regularity of the ringing, until the difficulty which has arisen has been laid before their association.

This last paragraph might well be repeated on each receipt form. Two results would be involved: every band would make most strenuous efforts to get all the clergy enrolled as members. At present some do not trouble about this. The result is that most clergy know little or nothing of our associations; if most of them were members few difficulties would arise.

And the associations would have to admit the clergy, whether ringers or not, for the same subscription as ringers. This would be in itself an excellent thing, and encourage the clergy to take an interest in ringing.

Will your readers, clergy and ringers, let us know what they think of this?

Ufford Rectory.

HERBERT DRAKE.

**DEATH OF AN AUGHTON RINGER.**

SECRETARY OF FORMER LIVERPOOL DIOCESAN GUILD.

The death of Mr. William Bentham, one of the ringers at Christ Church, Aughton, near Ormskirk, Lancashire, took place on Wednesday, May 7th, after a brief illness. Mr. Bentham, who was in his 67th year, had retired on superannuation about a year ago, with the good wishes of his employer, the L. M. and S. Railway Co. He had been a ringer at Christ Church for over 40 years, and was, in conjunction with the late Rev. W. T. Bulpit, ringing secretary of the Liverpool Diocesan Guild, from its birth to the time of its amalgamation with the Lancashire Association. Previous to living at Aughton he had been a ringer at Wigan Parish Church, and owed his early instruction in the art to the late Mr. Jos. Prescott, of St. Peter's, Hindley. He was an excellent striker, and had conducted many peals of Grandsire Triples, as well as taking part in many peals in the other standard methods.

The funeral took place at Christ Church on Saturday, May 10th, in the presence of a large number of friends and parishioners, and also many officials, etc., of the L. M. and S. Rly. Co. Messrs. W. Fairclough, H. J. Morley, James Marsh and W. H. Gibbons, ringers at Christ Church, acted as bearers, and among the many beautiful floral tributes which covered the coffin was one in the form of a bell from his fellow ringers. Muffled touches were rung before and after the service, the local ringers being assisted by Messrs. E. Counce (Liverpool) and H. Fyles (Halsall). An attempt for a muffled peal unfortunately came to grief, after 2 hrs. and 45 mins. ringing.

**BARNSELY AND DISTRICT ASSOCIATION.**

The monthly meeting was held at Cawthorne on Saturday, May 10th. This village is very popular for a ringers' meeting, for all around the church everything is pleasing. There was ringing during the afternoon, and a large party gathered for tea.

A short business meeting followed. The Vicar (the Rev. W. A. Woolley) was present, and offered a hearty welcome to the association, and further expressed the wish to gain knowledge that would help him to strengthen the ties of fellowship that exist between church and ringers.

The Chairman (Mr. Wm. Reyner), on behalf of the ringers, thanked the Vicar for his warm welcome and kindly interest, and suggested as a stimulus the introduction of new blood into the art. Young men from the church should be introduced to the senior members, for their example and knowledge to be copied and emulated.

Sympathy was expressed towards two members, Messrs. Fish and E. Crossland, of Cawthorne, who are seriously ill, and it was hoped that their recovery may be speedy and complete.

Mention was made of the forthcoming cup contest at Hoylandswaine, particulars of which will be given later.—A hearty vote of thanks was passed to the Vicar, churchwardens, and local company, for the excellent arrangements.

**PRESENTATION AT PORTISHEAD.**

At St. Peter's belfry, Portishead, on Tuesday, May 13th, the captain, Mr. W. Gillingham, had a very pleasant surprise. A few of the former ringers wished to show their appreciation to their captain, and this took the form of an illuminated address framed in oak, and a handsome silver-mounted umbrella bearing the recipient's name.

The Rev. H. S. Briggs and Mrs. Grieves presented these tokens to Mr. Gillingham, and the address read as follows: 'Presented to Mr. W. Gillingham by his former pupils of Portishead belfry as a token of their affection and gratitude towards him.—Mary E. N. Briggs, Mabel G. N. Grieves, Edith M. Harvey, Mary G. Staley, Henry S. Briggs, Charles O. Grieves.'

Mr. Briggs spoke of the pleasure it had been to them to be members of the band for a number of years, and referred to the regular ringing for every Sunday service year by year, which was maintained by Mr. Gillingham's untiring energy. He hoped the forthcoming years would be as successful as the previous ones had been.

Mr. Gillingham, in expressing thanks and great surprise, said it had been a pleasure to have such apt pupils, and he regretted they were unable to continue their valuable help. His mind went back to the time of the commencement of their eight bell ringing. The two trebles were added in 1897 entirely by the efforts of the ringers, and Mr. Nisbet had been, then as now, his faithful colleague. Mr. T. Doble hung the two new bells which came from the Loughborough foundry, and the band deeply regretted to hear of Mr. Doble's sudden death, which took place quite recently.

It might be added that two of Mr. Gillingham's pupils took part in the first ladies' peal which was rung at Cubitt Town in 1913, also that his band of ladies rang the first peal for the Ladies' Guild at Portishead in 1915, the three first mentioned on the presentation address taking part. Of these events he is very proud.

The Portishead band read with great pleasure the account of the peal of Stedman which was rung at Old Windsor on May 10th, and offer their heartiest congratulations to the eight ladies on their splendid achievement.

**WORCESTERSHIRE AND DISTRICTS ASSOCIATION.**

SOUTHERN BRANCH AT OVERBURY.

On Saturday, May 10th, the Southern Branch of the Worcestershire and Districts Association held the spring meeting at Overbury, and in spite of the inclement weather, and the fact that the village is only accessible by road, the attendance was well up to the average, nearly fifty members being present. The bells were well utilised throughout the afternoon and evening in various Minor methods, and Doubles rung for the beginners. The association's special form of service was held in the Parish Church, at which the Vicar (the Rev. W. Lea) gave an interesting address, taking for his text, 1 Cor. ix. 16, 'Woe is unto me if I preach not the Gospel.' A collection, taken on behalf of the Rowley Regis Church and Bell Restoration Fund, realised 14s.

Tea, provided by the generosity of the Vicar, was partaken of in the Village Hall, and at the subsequent business meeting he presided, supported by the Revs. T. P. O'Connor (curate of Overbury), G. W. Webb (curate of Bretons Norton), J. A. B. Mercier (Rector of Kemerton), D. Fitzmaurice (Vicar of Hampton), and Messrs. J. Hemming, J. D. Johnson and J. Hall (branch officers).—It was decided, subject to the approval of the Rev. G. H. B. Greening, to hold the summer meeting at Offenham, and to attempt the quarterly peal at Overbury, with Mr. O. Attwood as conductor.

An interesting and encouraging feature of the meeting was the number of young ringers nominated for membership, no less than two honorary and fourteen performing members being elected.

On the proposition of Mr. C. A. Binyon, a hearty vote of thanks was accorded to the Vicar for the use of the bells, his address, providing tea, and presiding at the meeting; and to all who had assisted in making the meeting such a success.—The reverend gentlemen present briefly replied in turn, and a selection of popular airs, and a touch of Erin Cinques on the handbells, brought a most successful and enjoyable afternoon to a close.

**LONDON COUNTY ASSOCIATION.**

The Southern district of the London County Association held a splendid meeting at St. Stephen's, Clapham Park, on Saturday.

The church, which is situated in a quiet secluded spot, has a fine peal of eight on which a company of over 30 enjoyed ringing during the afternoon. Tea was served in the Church Room attached to the Vicarage, and a routine business meeting followed.

At the conclusion a hearty vote of thanks was accorded to the Rev. G. H. Ensor (Vicar) for the use of the bells, and also for the sumptuous tea he provided. After the business a move was made to the church again, and the Vicar gave permission for an extra hour's ringing. Some good touches were accomplished, Stedman, Cambridge, and the other methods being rung. The ringers came from different parts of London, and some from outside the London area, which speaks well for the popularity of the tower, and also of the district.

**ILMINSTER RINGER'S FIFTY YEARS' RINGING**

An interesting function took place at Ilminster, Somerset, after the peal rung on the 10th inst., when Mr. Harry Raison was presented with a gold badge inscribed, 'Presented to Harry Raison by his brother ringers, May 10th, 1924—fifty years a ringer,' to commemorate the completion of fifty years' ringing. He commenced ringing at Puckington Church, three miles from Ilminster, half a century ago, and 32 years ago joined the Ilminster band, which was then being initiated into the art of change ringing. Of the members then constituting the company three remain to this day, and all three were in the peal, the other two were the ringers of the treble and fourth bells.

The writer took up ringing in 1898, and can vouch for the fact that Mr. Raison has been a most regular attendant at both practice and service ringing on Sundays. He has always been found at the back end, and though he has only scored three peals it has been due more to want of opportunity than lack of desire. Owing to the position of the church peal ringing is not encouraged.

After completing the peal, the party was joined by the other members of the Ilminster band, and sat down to a spread at which the presentation was made.—Mr. Raison suitably responded, and said it had come as a complete surprise to him. It had been his one idea to score a peal on the occasion.

It was suggested that the party might adjourn to Puckington, and have a pull there, as being an appropriate finish to the proceedings. Cars were chartered, and the whole party went merrily off in spite of a downpour of rain which had lasted practically the whole day. Here the conductor of the peal, Mr. J. T. Dyke (Midsomer Norton) initiated some of the company into the mysteries of Oxford Bob Minor and College Single, and touches of Plain Bob and Grandsire were also rung.

**YOUNG RINGER'S 50 PEALS.**

Few young ringers can claim 50 peals while still only 16 years of age, and the half-century which has been completed by Jeffery R. Gammon is an extraordinarily good record. This promising ringer was a pupil of Mr. T. H. Taffender, Master of the London County Association, and the following is the list of his peals: Grandsire Cinques 1, Bob Royal 1, Kent Treble Bob Major 5, Royal 5, Maximus 1, Stedman Triples 12, Caters 10 (including 6 on handbells), Cinques 5 (2 on handbells), Cambridge Surprise Major 7, Royal 1, London Surprise Major 2.

**MR. JOHN FLINT'S 400 PEALS.**

The peal of Rutland Surprise Major rung at Bolsover on Saturday, April 26th, was Mr. John Flint's 400th peal, a considerable number of which he has conducted. They have been rung in exactly 100 towers in 25 counties. The following is the list:—

Minor in one method	1
Minor in two methods	3
Minor in three methods	1
Minor in 7 Treble Bob methods	6
Bob Triples	1
Bob Major	1
Boy Royal	3
Kent Treble Bob Major	28
Kent Treble Bob Major (on handbells)	5
Kent Treble Bob Royal	22
Kent Treble Bob Maximus	1
Oxford Treble Bob Major	2
Oxford Treble Bob Royal	4
Double Norwich Major	85
Double Norwich Caters	2
Double Norwich Royal	4
Grandsire Triples	1
Grandsire Caters	7
Stedman Triples	9
Stedman Caters	20
Stedman Cinques	6
Forward Major	1
Forward Royal	1
Cambridge Surprise Major	6
Cambridge Surprise Royal	4
New Cambridge Surprise Major	10
Superlative Surprise Major	75
Norfolk Surprise Major	13
Peterborough Surprise Major	2
Yorkshire Surprise Major	15
Yorkshire Surprise Royal	1
London Surprise Major	20
Bristol Surprise Major	20
Pudsey Surprise Major	2
Rutland Surprise Major	2

## BELFRY GOSSIP.

'Many happy returns' to Mr. George Williams, Master of the Winchester Diocesan Guild, who will celebrate his 67th birthday on Tuesday.

The first peal at Gainsborough was rung 'on the new peal of eight bells,' on Whit Tuesday, May 24th, 1768, 'by the Nottingham band of Sherwood Youths.' This was 'Mr. Holt's true whole peal,' and the bobs were called by J. S. Canner. There is still a board in the tower recording this peal, and beneath the record are the words, 'Labor omnia vincit.'

The first peal of Stedman Caters (albeit a false one) was rung at Horsley Down Church, London, on May 28th, 1787.

The first Surprise peal out of England—Superlative—was rung at Bray, Ireland, on May 28th, 1801.

On May 28th, 1912, the present Bristol Surprise record was set up, when the peal of 15,264 was rung by the Middlesex Association, at Hornchurch, Essex, in 9 hrs. 49 mins., conducted by Mr. W. Pye. Another 'lucky' peal has to be recorded. A 5,024 of Bob Major was rung at Stanford-on-Soar, Notts, on Saturday, and, when the bells were lowered, the 7th rope broke at the first pull.

A peal of Double Norwich Major was rung at Bolton on Friday, and was the first peal in the method by Fred F. Rigby, who rang the 2nd. This young man rang his first touch in change ringing on May 13th, 1923, and in just a year has rung six peals in six methods—and he has not yet left school. There is promising material here.

A peal was rung at Wrentham, Suffolk, on Thursday, to celebrate the 57th anniversary of the wedding of Mr. and Mrs. A. J. Naunton. Mr. Naunton, who is the 'father' of change ringing in that part of Suffolk, is 80 years of age, and has been a ringer at the Parish Church, Wrentham, for over 50 years. Owing, however, to ill-health he was compelled to give up ringing at the end of February. We hope, however, he may yet sufficiently recover to return to his place in the belfry.

At the Easter Vestry, at Feering, Essex, Mr. C. J. Rogers, a ringer at All Saints' Church, was elected people's warden.

As we mentioned in this column last week, it is 50 years since Mr. Sam Wood, of Ashton-under-Lyne, rang his first peal. He took part on Saturday at Macclesfield in the first twelve-bell peal in Cheshire, and it is just fifty years since his father conducted a peal in that tower.

## STEDMAN CINQUES BY WIRELESS.

Special arrangements are being made to broadcast two courses of Stedman Cinques from St. Martin's, Birmingham, on Sunday. This is to be done as the prelude to a broadcast service from 8 o'clock to 8.30 p.m. The bells will be rung from 7.45 p.m., by the Sunday Service band. In previous broadcasting of this kind, bells have only been chimed, and this, it is believed, is the first time that the actual ringing of church bells has been transmitted by wireless. A microphone is to be specially fixed for the bells.

## OXFORD DIOCESAN GUILD.

*To the Editor.*

Sir,—It is high time that someone took hold of the reins in the E. Berks and S. Bucks branch of the Oxford Diocesan Guild. There has been nothing arranged by the branch secretary since Easter Monday, 1923.

The only gatherings have been one at Beaconsfield in 1923, arranged by Mr. C. C. Mayne, and at which a good suggestion was made for another at Farnham Royal and Stoke Poges in two months' time, but which was allowed to fall through owing to the branch secretary's shortcomings; and another at Bray on Easter Monday of this year, which was apparently arranged by the Master, and the Vicar and ringers of Bray.

When is the annual meeting to be held?

ARAB.

## WISBECH BELLS.

*To the Editor.*

Sir,—In the account of the attempted peal at Wisbech in your issue of to-day I see it stated that the back eight bells are by Wm. Dobson, and the two trebles by Mears. Have the latter two bells been recast? The whole peal of ten were cast by Dobson, originally in 1823. I have the rubbings of the inscriptions at this moment before me, and find that both trebles were inscribed alike, viz., 'William Dobson, Downham, Norfolk, fecit, 1823.' I have never heard of their being recast; but, of course, this may be the case.

I have not rung in Wisbech since the 'seventies.' And, as far as I remember, when I was last in the belfry, the trebles had no ropes on them, and were never used, because it was said that they could not be heard distinctly outside.

I shall be glad of any information on the matter.—Yours, etc.,  
May 16th, 1924. J. R. JERRAM.

## HELD OVER.

Owing to the space taken up this week by the Peals Analysis, a number of peals and other reports are unavoidably held over.

REPORT OF THE ANALYSIS COMMITTEE FOR THE YEAR 1923.

The anticipations of your committee, expressed in last year's report, have not been realised if the number of peals only is taken into account. A further increase was expected, but the figures show the singular fact that exactly the same number of peals have been rung as in 1922.

This does not necessarily mean lack of progress, for abnormal conditions undoubtedly exist. Business needs increased attention, and it is known that for this reason many ringers, whose names frequently appeared in the peal columns, are unable to organise or take part in so many peals. Again, peals away from home entail expense, and with unemployment so rife, the number of these must be considerably curtailed.

Taking all the circumstances into account, it may be truly said that the report shows the Exercise to be in a real live condition, and that the return of better times will mark the beginning of a great advance.

While the total number of peals is 1,885 (the same as in 1922), the tower bell peals are slightly increased, being 1,728, as against 1,716, the handbell peals with a corresponding decrease being 157 against 169; the following table showing the totals for the year:—

HANDBELL PEALS.

Suffolk Guild	3		3	15					
<b>Total</b>	<b>7</b>	<b>1</b>	<b>8</b>	<b>49</b>	<b>2</b>	<b>1</b>	<b>1</b>	<b>4</b>	<b>15</b>

	Tower Bells.	Handbells.
Maximus	12	2
Cinques	44	15
Royal	47	11
Caters	97	14
Major	683	65
Triples	435	38
Minor	316	8
Doubles	94	4
<b>Total</b>	<b>1728</b>	<b>157</b>

Comparing this with the year 1922, it is seen that 12-bell peals have increased by 15, those on 10 bells have decreased by 36, Major peals are 65 more, Triples are 32 less, and Minor and Doubles have decreased by 11.

The greatest number of peals has been rung by the Kent County Association, with 155 tower bell and three handbell peals, equalling 2,329 points, while the most points have been scored by the Midland Counties Association with 3,127 for 144 peals, including four on handbells. The first named shows an increase of 39 peals, and 530 points over 1922, the Midland Counties having five peals less, but 373 points more. Two other societies have rung over 100 peals, as follows: The Norfolk Guild, 134 peals, including 15 on handbells,

equaling 1,774 points; and the Lancashire Association, 125 peals, including one on handbells, and 1,979 points. Taking the first of these as the survivor of the Norwich and Ipswich Association, these are the same four societies which rang over 100 peals in 1922.

The Ancient Society of College Youths has the highest average of points per peal, with 30.83 for 40 peals, including three on handbells. The Middlesex County Association is second with an average of 27.75 for 76 peals, including six on handbells, and the Durham and Newcastle Diocesan Association has dropped to third's place with 25.2 for 20 peals, including four on handbells.

The most encouraging feature revealed by the analysis is the continued increase in the number of Surprise peals. Although those rung on 10 and 12 bells have decreased by 12, the Major peals of Surprise are 39 more than last year. London shows an increase of three peals, Bristol 10, Cambridge 12, Superlative 11, other methods three. The greater interest in these top class methods, giving as it does a higher average of points per peal, is sufficient to show that the Exercise is in a progressive condition.

Included in the Surprise methods rung are one each of Middlesex and Princess Mary Royal, four peals of Yorkshire, and one each of Palatine, Edinburgh, Lancashire, Rutland and Norfolk Major.

205 peals of Treble Bob have been rung, made up as follows:—Six of Kent Maximus, 24 of Kent and four of Oxford Royal, 145 of Kent, 19 of Oxford, and seven Spliced peals of Major; these figures differing but slightly from last year.

Double Norwich with 150 peals also shows very little change, but Plain Bob has increased by 20 peals to a total of 187, and Little Bob with five peals remains the same.

Coming to odd numbers, Cinques, Caters and Triples, with the exception of three peals, i.e., one of Erin Caters, and one each of Court Bob and Bob Triples, the whole of them were rung in the two standard methods, Stedman and Grandsire. These methods again run a close race for supremacy, but the fact that Stedman is now at the top with 343 peals, an increase of 11, against 297 of Grandsire, is certainly a mark of improvement.

New methods have been rung as follows: Princess Mary Surprise Royal, and Rutland, Edinburgh and Palatine Surprise Major. Little Bob Maximus has also been accomplished, and Cambridge Court Bob Major was rung for the first time on tower bells.

The outstanding peal of the year is undoubtedly the practically perfect of 12,675 of Stedman Cinques rung by the College Youths at Southwark Cathedral; following this was the record length (17,280) of Kent Treble Bob Major rung by the Chester Guild, the record length (12,896 changes) of Cambridge Surprise Major by the Midland Counties Association, and the record of Cambridge Surprise Royal (10,440 changes) by the Middlesex Association.

Other lengths over 7,000 are three peals of Kent Treble Bob Major, being 7,008, 7,488 and 9,344 changes, by the Chester Guild; 10,912 of Kent Treble Bob Major and 7,008 Cambridge Surprise Major by the Midland Counties Association, and 7,360 of Kent Major by the Stoke Association.

Apart from the number of changes, there are many other noteworthy performances, but space forbids the mention of them all in detail. Briefly, to refer to a few, we notice a spliced peal of three methods of Plain Major; Stedman Caters, being the first peal in hand by all, and first of Stedman Caters as conductor; a peal of Bob Major where two of the hand had each lost an arm in the war; the first peal of Major by a police band; Grandsire Caters, being the first in the method by all and rung at the first attempt; a handbell peal by three generations of one family; and a peal of Cambridge Surprise Major, being the first in the method by all. It must also be noted that the first handbell peal in a train was rung by the Royal Cumberland Youths.

As shown by the table, six-bell ringers have fallen back a little in the number of peals. The decrease of 11 is all in Minor, Doubles being the same number as last year. Here again the decrease is compensated for by an advance in quality, and the peals include one of 10,080 by the Bedfordshire Association, and 7,200 by the Lincoln Diocesan Guild.

The Chester Diocesan Guild has given us the most remarkable performance in Minor ringing, their total including three peals of seven extents, consisting of 29, 30 and 35 methods, respectively.

The names of conductors of five peals and over are as follows, the number of handbell peals being shown in brackets:—47 peals, A. H. Pulling (23); 31 peals, W. H. J. Hooton (22); 29 peals, F. Bennett; 28 peals, J. H. Cheesman, H. J. Poole (2); 26 peals, R. Sperring; 25 peals, E. Jenkins (5); 24 peals, W. Pye (2); 22 peals, G. H. Cross (3); 19 peals, T. H. Taffender (1); 18 peals, W. Keeble (2); 17 peals, C. F. Bailey (4), G. Williams; 16 peals, J. F. Dyke, K. Harl, R. Matthews, G. R. Newton; 15 peals, H. Langdon; 14 peals, C. Camm, C. T. Coles, C. H. Kippin, junr., A. E. Lock, E. Morris, W. C. Rumsey, A. Wright; 13 peals, G. Billenness, A. Walker (6); 12 peals, W. Ayre (3), W. Nye, O. Sinnerets, G. E. Symonds (2), T. Tebbutt; 11 peals, C. Edwards, B. A. Knights, F. W. Naunton, G. R. Pye, J. E. Sykes, A. Tomlinson, J. A. Trollope; 10 peals, F. H. Dexter, T. Groombridge, junr. (2), C. F. Winney (5); 9 peals,

N. R. Bailey (9), F. Berrett, F. Chamberlain, H. M. Day, P. J. Johnson (2), Tony Price, the late J. W. Washbrook (1); 8 peals, J. Austin, J. Bennett, W. A. Cave, A. Haman, W. T. Last, J. D. Matthews (2), G. F. Swann (3), S. H. Symonds (4), W. Welling; 7 peals, E. Barnett, senr., H. Broughton, C. W. Clarke, F. Cotton, G. A. Fleming, E. C. Gobeys, J. Houldsworth, J. P. Hyett, H. Knight, C. R. Lilley, J. Lord, J. Potter, J. H. Riding, J. Thomas (6); 6 peals, E. M. Atkins (3), W. H. Barber (1), R. F. Elkington, J. Fernley, W. Fisher, J. Flint, T. T. Gofton (4), Bert Gogle, L. Head, E. G. Hibbins, S. T. Holt, J. D. Johnson (3), W. F. Judge, A. E. Norman (2), H. R. Pasmore, F. W. Perrens (1), W. Rogers, E. Whiting; 5 peals, W. B. Cartwright, P. Crook, F. W. Dixon, A. E. Edwards, J. A. Freeman, G. Gilbert, L. A. Goodenough, A. Greenfield, J. R. Griffin, T. Groombridge, senr., H. L. Hariow, W. H. Hewett, F. J. Lewis, H. Ludkin, W. Page, W. Poston, R. Richardson, F. Skevington.

In addition there were 34 conductors of four peals (11), 49 of three peals (12), 96 of two peals (6), and 271 of one peal (5), the remaining peal being non-conducted.

The number of lady conductors included in these figures is one more than last year, and they have increased the number of peals called by three. Miss E. K. Parker has conducted three peals, including Stedman Caters; Miss Nellie Johnson, two handbell peals, including one of Kent Royal; Miss A. Parkins (now Mrs. Richardson); and Miss Hilda F. Willson, one each. The reverend gentlemen have fallen off as conductors, there being only four, as against six last year. Three performances by young conductors may be specially mentioned, W. P. Whitehead and T. W. Taffender having called a peal each at the age of 15, and H. J. Poole conducted 28 peals, including the difficult 12,896 of Cambridge Surprise Major.

The following table compares the number of peals rung each month during the years 1922 and 1923:—

	1922	1923	1922	1923
January	120	147	July	134
February	181	145	August	175
March	124	145	September	158
April	162	195	October	165
May	137	153	November	174
June	120	154	December	235
			1885	1885

It is at once seen from this that the energy shown during the dog days of 1922 was not repeated the following year.

The number of peals rung on the Saturdays was 1,034, Sunday peals numbered 91, and Friday 79, the remaining 681 being about equally divided between the other four days. Holiday peals numbered 79, and there were also rung for the Royal Wedding 34, on Empire Day five peals, 11 for Armistice celebrations, 18 on New Year's Eve, and 26 on the Eves of and Festival days of the Church: 33 peals were in honour of royal birthdays, including four for Princess Mary's son.

The footnotes to peals tell us also that there were 687 who rang their first peal, while on 8 to 12 bells 1,089 men rang a fresh method, 175 six-bell ringers ring a method for the first time, or increasing the number of methods in a peal. Twenty-seven rang their first peal on twelve, 24 their first of Maximus, first of Cinques 13 ringers, first on 10 bells 43, of Royal 67, Caters 25, first on 8 bells 47, of Major 87, Triples 35, of Minor 78 and Doubles 42, and 28 rang their first peal on handbells.

Seventy-four joined the ranks of the conductors, and 117 conducted their first peal in the method. First peals on the bells numbered 60, and first in the method 157. There were 292 birthday peals, including those for royalty, and 17 for a coming-of-age, 20 peals of welcome, and 31 farewell peals; 47 for weddings, 21 to celebrate silver weddings, and six golden weddings; 58 anniversary, three memorial, and three for thanksgivings. Muffled peals numbered 21, and half-muffled 58. The fastest peal ever rung may also be noted.

As usual, we conclude with the number of peals rung in representative years since 1881, the grand total since the beginning of that year being 44,782:—

1881—186	1898—1002	1914—1415	1920—1471
1885—500	1902—1513	1915—259	1921—1632
1889—797	1905—1519	1917—130	1922—1885
1894—859	1909—1628	1919—1048	1923—1885
	1913—2359		

F. W. CARPENTER, Ringers Vicarage, Lincoln.

A. T. BEESTON, New Mills Stockport.

GEORGE WILLIAMS, West End, Southampton.

JOSEPH W. PARKER, 5, Amberley Street, Sunderland.

CAMBRIDGE.—At Great St. Mary's, on Monday, May 5th, 594 Grandsire Caters: \*A. King 1, Y. Green 2, T. Chenery 3, W. Ibbett 4, J. Taylor 5, \*J. Newington 6, T. Dennis 7, E. G. Hibbins (conductor) 8, W. Welch 9, P. Taylor 10. \* Longest length on 10 bells.

**SUNDAY SERVICE TOUCHES.**
