COMMENT

FINDING NEW FIELDS TO CONQUER

CHANGE RINGING in England has reached a stage far in advance of anything contemplated as recently as five years ago. Spiced Surprise Major under the guidance and inspiration of Mr. Anthony Peake has climbed to 165 methods, and Mr. Norman Smith has had the immense satisfaction of ringing a peal to 23 Spiced Surprise Major methods in which all the work of all the bells is rung in the stipulated methods. Minor and Doubles multi-method peals have attained fantastic heights and it is not uncommon to read the report of a peal occupying about half a column of "The Ringing World."

The pinnacle of human endeavour, both mental and physical, mounts up steadily year by year. The performances of Mr. Peter Border have set those who study the mastery of the bell and change ringing new standards, and some might say that the time is ripe for opening up a new vista in the art of change ringing. A unique opportunity for inventive genius is being stimulated by the offer of an anonymous donor to provide a prize of 100 guineas for the best new method on an even number of bells in which all the bells do all the work. The idea is to break away from treble-hunt and treble-dominated methods.

We are approaching the time when three centuries will have passed since Fabian Stedman expounded his principle in "Campanalogia." It has stood the test of time; Stedman is still considered to be a very worthy method in Triples, Caters and Cinques. Indeed, the polished performances of Cinques by St. Martin's Guild for the Diocese of Birmingham culminating in a peal of 15,699 changes on November 12th, and the College Youths' outstanding exhibition of ringing simultaneously three peals of Stedman Cinques in London, indicate the favour with which the music of Stedman is held and that it calls even in this age for faculties of concentration.

Can this age produce a method to capture the imagination like the Stedman principle? There have been attempts, as evidenced by Duffield or Forward, but they have never succeeded in becoming popular. A similar idea was promoted by Lord Wrenbury when Saffron Walden bells were being restored, but it fell upon an unresponsive public. Before accepting this generous offer the Editor consulted members of his committee and certain officers of the Central Council. Whilst the view was not unanimous, the consensus of opinion was in favour of the competition being held.

The Editor has been fortunate in obtaining the services of two able assessors, both of whom are well known as composers and peal ringers of repute. It is their wish and also the desire of the Editor that they shall remain anonymous; furthermore, their work shall be divorced from any committee of the Central Council. Methods approved by them will be published under a number—it is considered that entries from well-known names might have an influence on public choice. The main gauge will be ringing the method to peals, quarter peals or touches. These should be reported to the Editor with individual comments.

Lastly, the Editor would like to express a warm thank you to the generous donor who conceived the idea. The prize money has already been paid to "The Ringing World" and it now remains for the ringers of this generation to prove that we have men, and possibly women, among us capable of presenting new ideas in composition to expand the Exercise in directions so far untrodden.

OUR PICTURE

St. Wendreda's Church, March

Mr. Trevor A. Bevis, whose articles and drawings have given pleasure to our readers for many years, provides our front page picture this week. The church, which is a mixture of 13th, 14th and 16th century styles, occupies a position on the Old Fen Road, and the passage beneath the tower preserves an ancient right-of-way.

The steeple is unusual for the Eastern Counties in that it has a turret backbone, which style is found mostly in Devon and Somerset. While the exterior is pleasing to the eye, the famous showpiece of March is the remarkable double-hammerbeam angel roof, which was carved by Suffolk men about 450 years ago. Embodied in the design are over 100 angel musicians, attended by a mute congregation of martyrs and prophets holding books and emblems. No wonder the Camden Society regarded this hammerbeam roof as the finest in existence. It has been said that this roof played a part in the inspiration of that masterpiece of detective fiction, "The Nine Tailors," as Miss Dorothy Sayers, who lived a few miles from the church, frequently visited St. Wendreda's.

The six fine-toned bells, with a tenor of 15 cwt., were cast by Thomas Osborn at Downham Market in 1802, and the treble recast in 1929. With war years excepted, not once in living memory has March Church been without an active team of ringers, and it is thought that they have been manned successively for 165 years. The past 20 years have been particularly rewarding and in that time at least 100 boys and girls have learned to ring. There are at present 18 ringers, and the bells are rung on Sunday mornings and evenings, with practices on Mondays.

63 YEARS A BELLRINGER

A remarkable record of 63 years of bell-ringing at St. Alkelda's, Giggleswick, Yorks, was honoured on January 28th, when a dinner was held at the Black Horse Hotel, Giggleswick, with Mr. William Silverwood, of Marshfields, Settle, as the guest of honour. Mr. Silverwood began his ringing career in 1904 and still, on occasions, gives the younger members of the band the benefit of his vast experience.

Canon E. A. J. Miller, president of the belfry, proposed the toast to Mr. Silverwood, saying that few indeed can have so long a record. Commenting on Mr. Silverwood's youthful appearance, he said that bellringing must be a most healthy form of exercise. He thanked Mr. Silverwood for his exceptional service, not only in the belfry but also in the choir and every church activity. Mr. Silverwood is the only surviving member of the original Church Council founded in 1921, and he has to his credit many years of service as a churchwarden.

Replying, Mr. Silverwood expressed his appreciation and recalled days and names of long ago. He wished the ringers well and said how pleased he was with the progress made in the past year under the patient and painstaking tuition of the conductor, Mr. Stan Wright.

David Parry was thanked for the arrangements he had made for an excellent dinner and an enjoyable evening. It is hoped to hold this function annually.

ONE HUNDRED GUINEAS PRIZE

We are approaching the period of the tercentenary of the works of Fabian Stedman. "Tintinnalogia" was published in 1668 and "Campanalogia" in 1677. These thoughts have induced an anonymous donor to ask the question "Can this age produce a modern Fabian Stedman?" Accordingly, he has generously offered a prize of 100 guineas for the best new system of even numbers of bells in which all the bells do all the work.

The anonymous donor writes: "With the exception of Stedman's Principle, which is still as popular as ever, the system of change ringing which has developed over the past three centuries, and which is now almost exclusively practised, is that of Treble-hunt, or Treble-dominated, methods. By thus confining itself to one form of change ringing, the Exercise may have lost sight of the possibilities, opened up by Stedman, of ringing by other systems."

This competition is therefore arranged to see if any present-day ringer can emulate Stedman and produce a system for even numbers in which every bell does the same work.

THE RULES

1. Entries may consist of one principle. If, however, this principle can be shown to be one of a larger class or system, this will be taken into account by the assessors.

2. Purely theoretical entries are not required; the competition is for a principle or system suitable for practical ringing.

3. In order to give as wide a field as possible, and bearing in mind that a new system would probably require its own rules, competitors may disregard the present rules of the Central Council relating to method construction, but the traditional requirements of starting from and finishing with rounds and without repetition must be observed and no bell may move more than one place at a time.

4. It is not a condition that the principle or system must give a simple blue line extension, although it will be considered a merit if the principle or system can be extended to higher numbers using a reasonably straightforward set of rules. Nor, if for eight bells, is it necessary that the principle should be adaptable for Minor.

5. The competition is not restricted to individuals, for it is envisaged that the best entries may well be the result of collaboration.

6. Entrants are required to submit the following:—

- (a) A description of the basis upon which the system or principle is constructed, and how it is adapted for 6, 8, 10 or 12 bells.
- (b) A plain course pricked out in full.
- (c) Particulars of the means of obtaining longer lengths.
- (d) If suitable for six bells, written out in shortened form.
- (e) For eight bells or more, a quarter peal, and a demonstration that a peal is possible.
- (f) A clear description of the way of proving the truth of touches and peals.

CONDITIONS

The Editor's decision in making the award is final. He is being assisted by two assessors who shall remain anonymous. Methods worthy of consideration will be published, so as to enable the Exercise to appreciate their value. Due consideration will be given to reports or tests such as peals and quarter peals. When a method is published the name of the entrant will not be announced; he will be given a number. More than one entry may be submitted from an individual or group.

Entries close on December 31st, 1967, and must be addressed to: The Editor, "The Ringing World," c/o Seven Corners Press, Onslow Street, Guildford. Members of the Editorial Committee of "The Ringing World" and ex-officio officers of the Council attending meetings of that committee are barred from entering.

LEADING PEAL RINGER, 1966

MR. G. E. THODAY

Heading the list of peal ringers for 1966 is Mr. G. E. Thoday, of Cambridge, with a total of 116 (conducted 50) and rung in 98 different towers. He works in Essex in the County Council's Motor Taxation Department.

A native of Over, Cambridgeshire, he was born in 1941 and taught to ring there in 1955. He made rapid strides with the invaluable assistance of ringers at Willingham, having rung his first peal (seven Doubles methods) on September 6th, 1958.

Of his present total of 497 (conducted 172), his most memorable attempt was at Exeter Cathedral in May, 1965. A novel point about his 1966 peals is that his first was rung in Suffolk on January 1st and his last of the year on December 31st, also in the same county.

Mr. David Beacham has resigned the secretaryship of the Worcestershire and Districts Association. His successor is Mr. Roy Sheppard.

ARCHDEACONRY OF HALIFAX GUILD

Bitterly cold weather; a treble that went so well she parted company with her stay in the first minute of ringing; a tenor which got hot bearings and wasn't going to go anywhere at all: a nice touch of Stedman Triples ably conducted by Mrs. Jeanne Bottomley; Norwich Surprise which didn't manage to get conducted by anyone; a tea which did manage to rise above stale sandwiches; and a whole bevy of new officers—all part of the Guild's annual general meeting held on January 7th at Almondbury.

After a vote of thanks to retiring officials (especially to Miss Winnie Mortimer for three years as a first-class secretary), the following elections were made: Chairman, R. Senior; Master, A. Rogers; secretary, I. Roberts; treasurer, A. W. Bond; auditor, H. Quarmby; committee, P. Birkett, H. Quarmby, D. Smith; Joint Council representatives, P. Birkett and E. Lord.

All good men and true, determined to ring lots more Woodbine, Violet and other methods bringing up 65's whilst rejecting Cambridge, London and the like as needless and "Irregular" Southern innovations.

If you like your Minor rung "Cartwheel" come and join us at Northowram on March 4th, where for additional fun we propose to do surgery on the Guild's constitution. I. R.

ALDRINGTON, KENT.—On Feb. 2nd, 1,272 Minor (three methods): E. Clifton 1, Sylvia Knight 2, Brenda Davies 3, H. Deacon 4, B. J. Johnson 5, N. J. Davies (cond.) 6.

Yorkshire Association's Popular Meeting

The general meeting held in and around Sheffield on January 21st was the Association's most successful January meeting for a long time. Whether the attendance of well over 100 was due to the attraction of the six at Walkley, so long out of action, to the election of a replacement for Mr. V. Bottomley as one of the Association's representatives on the Central Council, or to the presentation of the new rules, was a matter of discussion during the day.

A good selection of towers—two sixes (Wentworth and Walkley), two eights (Ecclesfield and St. Marie's), a ten (Ranmoor) and a twelve (the Cathedral)—provided a wide variety of opportunity for members, while the crowds in the belfries provided the Ringing Masters with organising problems.

The welcome given by the Vicar, ringers and parishioners at Walkley, in church, at tea and in the belfry, was outstanding. This was the Association's first visit to the parish; it is likely there will be others if members' reactions have any influence. Mr. E. Hudson spoke for all when he proposed a vote of thanks at tea to everyone who had helped, and the Rev. S. A. Clark (Vicar) replied. He allowed the ringing at Walkley afterwards to exceed the allotted time by an hour so that everyone could ring, and while members organised themselves into bands waiting to ring, they rang handbells and talked with the local ringers and churchwardens.

Some important business was dealt with. The new rules and standing orders were approved unanimously and are now in operation. Two of the more important changes are that "Honorary" members will be called "Associate," and there will be a standing sub-committee. Standing orders for peal conductors are described in detail, and the size of District committees is being reduced.

Mr. John Seager, of Sheffield, was voted to be the new Central Council representative, and the nomination of Mr. Christopher Moxon, of Cawthorne, for the treasurer'ship was received. Mr. A. Bashforth gave a brief report of the 1966 Snowdon Dinner at Catterick Bridge and he was thanked by the president, Mr. V. Bottomley, for making such a success of the event.

Mr. R. Ducker reported that the next Snowdon Dinner, on October 21st, would now be held in the Civic Hall, Cottingham, and not at Beverley, and that there was ample accommodation there.

The annual general meeting was arranged for April 29th at Skipton, and the autumn meeting will probably be at Whitby on September 16th.

New members elected were: Peter Town (Northallerton), Geoffrey Dykes (Scarborough), Philip Moorhouse (Barwick-in-Elmet), Jeremy Burnett (Tadcaster), D. H. Warren, B. M. Warren, R. H. Bructon and H. Walker (Giggleswick), and as non-residents: Katherine Thorley, D. A. Pearce, Marjorie Yarnold, Harry Parkes and Arthur Lewry.

PEAL RINGING IN 1966

656 First Pealers

OF the 5,000-6,000 peal ringers in the Exercise, 3,971 rang peals during 1966. 252 of them rang 25 or more peals, but only one—George E. Thoday, of Cambridge—rang more than 100. Of his total of 116 he conducted 50, and he consequently tied with C. Barrie Dove for the position of leading conductor. For the second year in succession Gillian M. Hunt (née Hussey) is the leading lady, with 75 peals, while her husband, D. John Hunt, with 89 peals, has dropped to second place in the tower-bell list and to third overall. Special congratulations go to No. 8 in the list—Edward Jenkins, of Oldham. To ring 75 peals, many of them on the "heavy end," while in one's seventies is a wonderful achievement. Congratulations are also due to Martin Green, of Leicester, who appears at No. 58. He rang his first peal at Shepshed on January 1st, 1966, and the 48 peals he rang by the end of the year included 44 of Surprise from Minor to Maximus, and one of Bob Royal.

Complete details are published on page 129, but the following are the leading ringers in the main divisions:

FOR MAJORITY—A SUCCESSFUL PEAL A REAL HIGHLIGHT

As John and Gill Hunt passed their index cards to us at the beginning of 1966, it has been possible to compare details of ringers who scored peals last year with those who did so in 1965. Although the number of peal ringers in each of the last three years has remained fairly steady (there were 3,668 in 1964 and 4,010 in 1965, compared with 1966's 3,971), it has become apparent that the actual number of peal ringers is probably nearer 6,000. A check has shown that 1,456 of those who rang a peal in 1965 failed to ring another last year. Since nearly 1,400 of these rang only one or two peals in 1965 anyway, and three-quarters of the 1966 peal ringers did the same, it is clear that the majority of the names we see in the peal columns are those of men and women to whom a successful peal is a real highlight in their ringing lives, something to be looked forward to with excitement, tinged perhaps with an element of dread, and looked back on with pride. In the annual interest in the list of Leading Peal Ringers (sometimes referred to irreverently as "The Crazy Gang") this is something that may be overlooked.

The "hard core" of leading peal ringers, on the other hand, would seem to number something in the neighbourhood of 150, and their names have appeared in all three comprehensive lists that have now been produced.

The ratio between men and women overall also seems to stay pretty constant, with four men to every woman; in 1966 the actual totals were 3,219 men and 742 women. But when the first pealers are considered, it seems that the picture may be gradually changing. There were 656 of them last year—440 men and 216 women, i.e. the ratio here was two to one. But at the same time the fair sex seems singularly loath to accept the responsibilities

MRS. GILLIAN M. HUNT

For the second year in succession Mrs. Gillian M. Hunt, of Bristol, has the place of honour as the leading lady peal ringer. In 1965 she gained her success with 100 peals as Miss Gillian M. Hussey. Despite the responsibilities of marriage she rang 75 peals, 18 in advance of her nearest rival. Her peal total is 290.

of conducting. Of 570 conductors in 1966 only 21 were women—and one or two of those contented themselves with ringing their bells to non-conducted peals rather than raise their voices to shout "Bob" at the menfolk!

To finish with, a few more words about those who scored their first peals during the past year. The youngest seems to have been 8-year-old Paul Jopp, of Stoulton, Worcs, and the oldest A. William Gibbons, of Bridgend, who was 73. A total of fifteen first-pealers under the age of 14 augurs well for the future.

The leading first-pealers were:

1. Martin Green ..	45
2. Keith W. Eaton ..	28
3. David Allman ..	17
4. Peter J. Church ..	13
5. Owen P. Claxton ..	11

A check was also kept of the Associations and Guilds for which these first-pealers rang their first peals and of which, presumably, they were resident members. While the results are to some extent dependent on the physical size of the Association, they do perhaps serve as a quick guide to the amount of instruction going on in each one. It is consequently hoped that the following list of all Associations, etc., who had ten or more first-pealers may be of interest.

SURREY ASSOCIATION Northern District

Beddington is always a popular venue for meetings and the annual general meeting of the Northern District proved to be no exception. Some 70 members and friends attended the business meeting, at which 17 new resident ringing members were elected. The officers elected for 1967 were: Master, Mr. W. Jackson; hon. secretary, Mr. N. Steere; assistant secretary, Miss A. Mann; auditor, Mr. H. Pitstow; committee members, Messrs. D. Brookes, R. Cooles and C. Mew.

The committee's proposed programme for 1967 of 12 meetings, including a social, striking competition and four Surprise practices, was presented to the meeting.

The new look of the front page of "The Ringing World" was discussed at some length. The general secretary, Mr. W. Parrott, gave details of the type of photographs required for the front cover. On a show of hands an overwhelming majority liked the new style.

Further ringing continued on Beddington bells, when members were able to sample the fine musical qualities of Double Norwich Caters, the special method selected for the meeting.

THE REPORT

The year 1966 has been a very full one, with several new ideas being put into operation. As a direct result of discussion, which started at a Northern District committee meeting, the Association is planning its first dinner since 1955.

Pride of place for originality must go to Mr. C. F. Mew for his series of lectures held at Putney during September and October. They attracted an average attendance of 25.

Mr. John Ketteringham is teaching a band from scratch at Barnes. The District is giving assistance there on practice nights as often as possible. Instruction at two other towers continues but with only mixed success.

A new form of assistance has emerged in the form of a circulating monthly practice. Committee members take turns in raising bands to visit the weaker towers. All previous forms of instruction and assistance have worn stale with time but it is hoped that the circulating practice catches on.

We will be saying farewell to the assistant secretary, Mr. Brian Bull, during the coming year and thank him for his work in the Putney area and for the Association. We are also losing the services of the Rev. Tony Clayton.

Membership shows an increase of 19 to 224. Forty new members were elected. We lost three members by death and 18 left the district or left ringing.

PEALS BY LOCAL BANDS

There were 17 peals rung during 1966; these consisted of two Triples, eight Majors, one Caters, five Royal and one Cinques. Two new methods were rung—St. Clement's Triples and Orkney Surprise Major. Both Beddington and St. John's, Croydon, rang local band peals. One hundred and thirty-three quarter peals were rung during the year. The leading tower was Addington with 43, of which 40 were rung for Sunday service, Clapham Common and St. John's, Croydon, rang 13 each and Putney 11.

Striking Competition.—There was a record entry of nine, due in no small measure to the persuasive efforts of the committee. The previous highest total of entries in the 10-year history of the competition is six. Beddington, the only team to ring eight bells, were the winners. Only three towers managed an entry for the handbell competition.

The usual number of meetings has been held with an average attendance of 46, two more than last year. Collections for the Belfry Repair Fund amounted to £10 0s. 6d. N. G. T. S.

ELING, HANTS.—On Jan. 29th, 1,380 Doubles (eight methods): Ronda M. Purkess 1, Gladys D. Northway 2, J. Hartless 3, T. Matcham 4, D. C. Jackson (cond.) 5, P. R. Parsons 6. First in eight methods on the bells.

Letters to the Editor

BELL WIDOWS

Dear Sir,—I have for some time wanted to write to you on behalf of those numerous readers of "The Ringing World" who are either not ringers or not any more, namely, the non-ringing wives, "Bell widows" might be a suitable name.

We are, I feel, a somewhat maligned group who, apart from an aversion to spiral staircases, things on the end of ropes that we can't see, and elusive husbands, have very little other objection to bellringing. Yet we are frequently spoken of as though engaged on some sinister campaign to undermine "the art." "Ah, she let you out tonight, then!" lugubriously intoned is a greeting that must echo round many ringing chambers, and, far from leaping to our defence, the sheepishly grinning male basks in his martyrdom!

We, on the other hand, are treated with that gentle consideration that can only, one feels, mask a guilty conscience. "Old X asked me to help him out over a ring at Puggleton next October. Couldn't let him down. You didn't want to do anything that day, did you?" And, of course, we didn't. Though one feels that a genuine campaigning wife would floor him completely at this point by producing from a secret list an unalterable engagement involving the whole family for that very date.

We are, in fact, the essence of patience and tact. We carefully peruse "The Ringing World" on its arrival in the morning post, so that we can tell him what was in it on his return in the evening. ("Sorry, dear, but when I turned round he'd eaten most of it.") We take garbled phone messages about plain young men called Bob who are always having triplets, and majors in Yorkshire who are consequently surprised, and make beautiful sense out of them. ("I told him you would be away"). We prepare sandwiches for his trips ("Cheese again?"), pore over columns of minute figures ("I tell you you said it wrong. There's a kinky bit in the middle") and offer dutiful congratulations to peal attempts ("You're home early again—how nice").

But joking apart (well of course we were), there is quite a lot to be said for those quiet afternoons and evenings when there is no one around to leave the daily papers strewn over the floor, deafen the neighbourhood with the radio and monopolise "The Ringing World."

There goes the phone—must dash off and tell them he's out—before he hears it.—Yours sincerely,

DOROTHY WAITE.

North Cheam, Surrey.

GUIDES AND SCOUTS AND RINGING

Dear Sir,—We are writing to say how much we are in wholehearted agreement with the views expressed by R. J. Vidler in your issue of January 27th. Being members of both the Guide and Scout movements and the local company of ringers we feel we can speak up for "two (or even more) hobby people."

To attain our respective ringing proficiency badges we had, amongst other things, to splice ropes, a simple example of a useful activity common to ringing and scouting.

The team spirit, concentration and friendliness one finds and indeed has to have in Guiding, Scouting and ringing is surely proof that various interests can and do help each other.—Yours sincerely,

ANGELA McBRIDE,
DAVID WRIGHT,
ROGER NEWSTEAD.

BRISTOL SOCIETY PEALS NON-ASSOCIATION?

Dear Sir,—May I repeat my two questions to Mr. Hunt which he has so far ignored? Who are the "officers" of the Bristol Society, and is it correct to suppose all peals rung for the "Society" are non-Association?

Anyway, how can one meet what I presume are purely fictitious persons? There were certainly no "officers" of the "Society" last April and I very much doubt if there are now. Just two plain, straightforward answers, please, Mr. Hunt!

No doubt he will also be interested to read the list of Sunday service ringers in the Gloucester and Bristol report for 1966, showing that I do support Bristol ringing whenever my work permits. A glance occasionally at the quarter peal columns will also show this. Also, Filton is not in Bristol, as it is within the county boundary of Gloucestershire.—Yours sincerely,

Filton, Glos.

A. TUBB.

Note.—Peals rung under the heading of "The Bristol Society" are recorded by the Peals Analysis Committee as non-Association. Only Guilds and Associations that are members of the Central Council are recorded separately.—Ed.

PREFERS PEALS IN PRESENT FORM

Dear Sir,—I am sorry that Mr. Ainsworth has chosen to think that I was trying to denigrate the Birmingham ringers' peals. That was not my intention. I was commenting on their obvious disapproval of the present arrangements of peal reports.

The object of mentioning the four peals of Londinium in my previous letter was to question the need for prominence when in one single issue of "The Ringing World" they can consume over half a column of top-class peals. Peals of this nature are quite capable of standing out amongst the others without segregating them. As I said in my last letter, all peals are achievements for someone and should be given the same treatment (except for record peals).

It was difficult to believe that anyone could want preference for their peals but the Editor's footnote to Mr. Taylor's letter certainly implied this, whether intentionally or not, and he did ask for readers' views.

Personally, I prefer the present system of arranging peal reports by Guilds and I am sure there are others of the same opinion. There are probably many who have no preferences on this subject. So, since it is not possible to please everyone, it seems sensible to choose the way (of the two methods in question) which is most economical on space and, therefore, cost, unless there is a great demand otherwise (especially if the saving contributes to giving us more front page pictures!).—Yours faithfully,

BARRY CORBISHLEY.

Macclesfield, Cheshire.

A FANTASY

Dear Sir,—With reference to "A Fantasy" on page 93 of "The Ringing World," I understand that the P.M.G. is to bring the matter before the House during the summer recess. Meanwhile it may be of interest to note that, after a trip to Newcastle upon Tyne, a visit to the Post Office ("Tavern"), a peal of Cambridge Maximus at the Cathedral, followed by a good dinner and an after-dinner party, George is once again his old smiling self.—Yours sincerely,

OLD BILL.

CONGRATULATIONS FROM MASSACHUSETTS

Dear Sir,—It has given me considerable pleasure in recent months to follow the excellent progress of Mr. Norman Sherratt and his band in North Staffordshire as reported in the peal columns of "The Ringing World." From the days when Kidsgrove Parish Church had a pleasant ring of six bells to the present time, when what might be termed the "Kidsgrove" band is ringing peals of Glasgow Surprise Major (vide page 67), there has been a consistent record of achievement coming quietly from this part of England.

Some years ago I had the pleasure of ringing with some of the people who are now realising some of their early ambitions; it was clear to me at that time that nothing but general benefit could come from such evident enthusiasm. I know that Mr. Sherratt himself is doubly rewarded by each new triumph, since one of his most notable characteristics is the obvious joy he derives from the achievements of others.

Perhaps in the not too distant future I may once more be able to join in. In the meantime I must be content with admiration from a "safe" distance.—Sincerely yours,

GEOFFREY DAVIES.

Watertown, Massachusetts, U.S.A.

KENT COUNTY ASSOCIATION

Rochester District

The first quarterly meeting for the year 1967 of the Rochester District was held at St. George's Church, Gravesend, on January 21st, which was attended by over 80 ringers and friends. The ringers' service was conducted by the Rector (the Rev. M. P. Beck), who extended a warm welcome to the Association and gave an inspiring address. Tea in St. John's Church Hall was kindly given by the ringers and friends of St. George's Church.

At the business meeting the Rector was elected chairman. A report on the November committee meeting was given by a District representative, and other matters discussed were the one-day ringing school and the Easter Monday annual general meeting.

Mr. L. Mitchell thanked all who had helped with the Christmas draw in aid of the Newington Tower Fund, which raised £45. Fifteen new members were elected to the Kent County Association. An omnibus vote of thanks to all who had helped with the meeting was proposed by Mr. F. J. Cheal, and further ringing continued under the direction of the District Ringing Master (Miss Joan Hayward). Hallowing of Drayton Bells

THE six bells at Drayton, near Norwich, were hallowed on Sunday afternoon, Feb. 5th. The church was packed from corner to corner, with many people standing, and there was an atmosphere of triumph and joy such as many a parish might envy. This village, once small, is expanding with the coming to it of more and more Norwich people, and the church is obviously abreast of events there.

The church, whose origins are Norman, has long had three bells. Michael Frost and his enthusiastic friends have been agitating for some time for a proper ring, and they were determined to obtain one by whatever means ingenuity might discover. "Do it yourself" was the idea, so far as possible, and the new metal bell frame was largely supplied and installed by generous co-operation from local builders and engineers.

Of the original bells, the tenor (weighing 6 cwt. 3 qr. 1 lb., cast by Braser of Norwich in the 15th century and inscribed "Dulcis Sisto Melis @ Campana Vocor Michis.") has been retained as the tenor of the new ring, the old 1 and 2 (by Brend, 1660, and Tooke, 1676) are recast as the new 4 and 5, whilst the three trebles are cast of metal from the treble, 3rd, 4th and tenor of Wood Dalling (formerly by Newman, 1697, Newman, 1707, Draper, 1620, and Neman, 1701).

The work has been excellently done by the Whitechapel Bell Foundry, and the new bells "marry" well with the ancient tenor, which has been tuned.

The service was shared by the Rector (the Rev. Humphrey Squire), Mr. G. Wood, the lay reader, and the new tower captain, Michael Frost, read the lesson. The president of the Central Council hallowed the bells and preached. Immediately after the words of hallowing and the handing of a rope and the responsibility thus symbolised to the Rector, the bells were rung by six of the local band—Michael Frost 1, Mrs. Margaret Holloway 2, D. Lloyd 3, Margaret Bunting 4, Mrs. Ella Frost 5, Bob Walker tenor.

THE CHURCH ALIVE

In his address Canon Thurlow said: "For 800 years and more there has been a church here, and never has it seen a more triumphant day than this. It has three particular implications—the Church is alive, the Church has a message to proclaim, the Church is a family united in service."

No such work as this, involving so much goodwill, generosity, imagination, courage, co-operation between so many people, could be faced were the Church not alive. We are told the Church is dying. Of course there are more ignorant of Christianity than in the past because the Church has been pushed out of one sphere after another where it has pioneered. But the Church is far more alive than one would expect from the spirit of our people.

In an England where the spirit of paganism is so obvious, the fact that there are so many Christians seems marvellous. Oh yes, anti-Christ is strong! The agnostics and atheists shout loudly, but despite these things—perhaps because of them—the Church is alive! There's more self-criticism, more planning for future difficulties, less self-satisfaction, more courage among Church folk than for a very long time. The Church in Drayton is alive.

The Church has a message to proclaim. This is what ringers do! The one fact which proclaims the Church's existence most dearly to the neighbourhood is the call of the bells. Their ringing is an inescapable challenge to all.

The Church is a family united in service. One sometimes hears of ringers who are not members of the Church family. What a reflection on that branch of the Church family! How miserable to have a congregation whose members have not enough of the spirit of service to raise a band of ringers amongst them! It is indeed right and proper that the new band of ringers at Drayton should be first and foremost members of the Church family, who add this way of service to the other ways of service they already give."

TRAINED IN NORWICH

Whilst the work has been in progress during the last few months, these and other enthusiasts in the church congregation have been learning to ring at St. George's, Colegate, under the kindly tuition of David Cubitt and the band there. These bells were made a nice light six by Gilbert Thurlow several years ago to serve as a "teaching tower" for Norwich.

Amongst the large congregation were between 70 and 80 ringers—a goodly number for a Sunday afternoon—from Norwich, Bunwell, Wymondham, Great Yarmouth, Keymer (Sussex), New Buckenham, Thetford, Honingham, Ipswich, Aylsham, Wroxham, Barking (Suffolk), Ruskington (Lincs), Beccles, East Dereham, King's Lynn, Gaywood, Blofield, Caston and Loddon.

A splendid running buffet tea, kindly provided by ladies of the parish, and ringing up till Evensong completed an outstanding day in the life of Drayton parish. G. T.

BATH AND WELLS DIOCESAN ASSOCIATION

Visitors from Bath, London, Long Sutton, Wiveliscombe, Wells and Yatton were welcomed at the annual general meeting of the Axbridge Branch held at St. Andrew's Church, Banwell, on January 28th. The Vicar (the Rev. J. Bromwich) conducted the service and, at the meeting which followed, the officers for 1967 elected were: Chairman, J. Walton; Ringing Master, H. Hopper; secretary, Miss M. Legg.

Two new members were elected from Winscombe, two from Banwell and nine from Churchill. The Branch is nominating John Gilbert as general secretary of the Association.

Subject to permission, the next meeting will be at Compton Bishop (April) with practices at Congresbury (February) and Weare (March).

MR. WILLIAM FAIRES

It is with great regret that we report from Lavenham, Suffolk, the death on January 29th of another of the local band, Mr. W. Faires, at the age of 78 years. He learned to ring at this tower in 1907. This makes four Lavenham ringers to pass on within 12 months.

Bill, as he was known to all ringers, rang his first peal (Grandsire Triples) in January, 1909, and rang regularly in this tower until a few months ago. At the burial service at Lavenham Church on February 2nd the company were represented by Messrs. M. T. Symonds, F. Turner, J. Johnson, C. Curtis, F. Hunt, A. Knight and H. Pryke.

In the evening touches of Grandsire and Stedman Triples and Plain Bob were rung with the bells half-muffled.

COMPTON DANDO, SOMERSET.—On Feb. 5th, 1.260 Grandsire Doubles: F. C. Mogford (cond.) 1, Mrs. A. J. Frith 2, R. W. Treasure 3, C. Allward 4, L. B. Coles 5, L. Batten 6. Rung half-muffled in respected memory of Preb. Frederick Cresswell, late Vicar, died January 27th.

OBITUARY

MR. F. J. COPE

Mrs. E. Mason sends us news of the death in a Guernsey hospital of Mr. Frederick James Cope, aged 60, the elder son of the late Mr. F. E. Cope, of Lichfield, Staffs. His ashes were scattered at Bisleigh, Surrey, where he won many cups for shooting.

The Copes were a very old family of ringers unique in their faithful and clever work with bells—both tower- and handbells. The late Mr. F. J. Cope was a bellringer at St. Mary's, Lichfield, and also at the Cathedral. Writing of his father, Mrs. Mason states: "He would walk a mile and back probably four times on a Sunday to ring at the Cathedral and St. Mary's. He had a broad, measured stride which didn't seem to vary or tire, and going to and from church and cathedral his face always wore the look of one with a solemn, serious mission from which nothing sort of an 'earthquake' could have deterred him. Also, he was a man with an old-world sense of courtesy to all men."

MR. W. D. PEART

With great regret we record the passing of Mr. David William Peart in his 85th year, on February 1st.

Mr. Peart ("Bill") commenced his ringing career at All Saints' Church, West Bromwich, at the end of the last century. He first rang as a competent ringer in 1898, when a new organ was dedicated. His first peal was rung in 1902 and his last in 1954. He was not a prolific peal ringer but he had stood in 20 peals in his own tower in this period. He was a remarkably regular attender both for service ringing and at practices; even up to the last few months prior to his retirement from the belfry due to ill-health.

For many years he was secretary to the belfry and regularly attended Society meetings as a representative of the tower. For more than 50 years he was a member of the choir, in which service he was equally assiduous, as he was in numerous other church activities. He loved his church, he loved the bells and he will be greatly missed.

A quarter peal of Grandsire Triples, with the bells half-muffled, was rung by his fellow ringers on the evening of the funeral as a token of respect to him and to express the ringers' sympathy to his widow. J. R. C.

MR. RALPH BEARD

With the passing of Mr. Ralph Beard, at the age of 85, on January 31st, the band at St. Mary Cray and the Kent County Association have lost a very faithful and well-loved member. He first began ringing at St. Mary Cray before the turn of the century. After his marriage, when he lived away from St. Mary Cray, there was a long gap before he came back to ringing after the death of his wife, about 12 years ago. One of the most faithful members of the band, he was not even daunted at having to learn new methods to enable him to keep up with the rest of the band.

Beside his bellringing, for which he thought nothing of walking two miles each way, often in inclement weather, even after he had reached his 80th birthday, he had a great love for his church and he will be sadly missed from his accustomed place each Sunday. He also took great pride in his care of the churchyard, which work he continued until his 83rd year.

In his earlier years he held various jobs locally, including that of verger at the Parish Church, and in his later years he worked for a local paper mill. Our sympathy is extended to his daughter and her husband.

23456	S	S	—	—	2

The main purpose of this composition is to provide the basis for a large number of 5,040's containing a variety of popular musical qualities. The 5,040's are produced by omitting an appropriate number of the round blocks (e.g. 2 singles at Home, 3 bobs at Middle) which abound in this composition.

The choice is further increased by the fact that singles at 4½, which produce 87's, may be inserted in any of the courses, thus making available for selection a total of 42 courses, all of which are true with one another.

The following options are also available:

(i)	34256	2½	M	6½	H
32654	—	—	S	S	—
36254	2S	—	—	S	—
23456	—	3	S	—	—

This block makes it possible to obtain all 24 56 roll-ups.

This may only be used provided that the whole block between and including the two singles at 6½ in the original peal is omitted, except in the case that one of the blocks is rung with 87's throughout, and the other with 78's throughout.

(ii)	42365	2½	M	W	H
32564	—	—	—	—	2S
62345	2S	—	2	S	2S

This block makes it possible to obtain 13 combination courses with 7890 fixed.

As before, this is only permissible with the same restrictions as for (i). (i) and (ii) may not be used together in a peal.

The following three peals are given as examples:

A WORSHIPFUL MASTER

Bio. F. Barraclough, of Eccles, Lancs, was installed as Worshipful Master of the Bridgewater Lodge, No. 1213, on February 9th. He is one of our one-armed ringers, having lost his right arm and shoulder in 1940. We wish him good health and a happy year of office.

HIGHCLERE BAND'S PROGRESS

The peal of Plain Bob Minor rung at East Woodhay, Hants, was by the Highclere band, this being the first peal ever rung by an all-Highclere team.

As Highclere has an eight-bell tower it was decided to ring the peal at a neighbouring six-bell tower, and the slow-moving six at East Woodhay proved admirable. In the team was one 12-year-old and three 15-year-olds. It is now hoped that two more of the band will be sufficiently advanced to attempt Triples this year.

First rung at Guildford Cathedral on January 28th, 1967.

This is an ingenious composition. Either the 6 or 5 is in 5ths place throughout the peal and the bells in 6ths place are in the order 2, 3, 4 in the first third of the peal and 2, 3, 4, 5 in the last two-thirds of the peal. It produces the best Tittums music using short courses throughout.

NEW RECORD PEAL

Mr. Anthony R. Peake's band created another record in Spliced Surprise Major on Saturday, February 11th with a peal in 165 methods. The peal was rung at Longney, Glos. There was an attempt on the previous Saturday at Stratton St. Margaret, which came to grief after 75 minutes.

BELFRY GOSSIP

Mr. R. Clarke, of Eltham, conducted his farewell quarter on January 8th. He has accepted an appointment in Toronto, Canada.

Mr. Russell Young, of Grotton, is coming to England this summer. He hopes to make his headquarters at Hereford.

To mark their arrival in Perth, Western Australia, Arthur R. Mann and Heather A. Mann with Eileen S. Palin rang a handbell touch of 540 Plain Bob Minor at 9, Grant Street, Morley, W.A.

Stowmarket, Suffolk, bells were returned on February 6th after eight months' absence for recasting or tuning at Messrs. John Taylor and Co.'s foundry, Loughborough. The seventh bell, dated 1672, has been recast.

After a recent attempt at Woburn, conducted by A. P. Cannon, a long-sleeved pull-over was left behind in the belfry. If the owner gets in touch with Mr. J. G. Spavins, 44, George Street, Woburn, Beds, he will return it.

The Editor thanks the lady who posted a Valentine to him from Wisbech, Cambs.

Mr. Joseph W. Cotton, secretary of the Midland Counties Guild, rang his 1,100th peal on January 24th.

Mr. Tom Goodyer, of Sydney, is planning an overseas trip in 1968. The only fixture to date is the Central Actuarial Convention in Munich from June 4th to 11th.

A quarter peal handbell tribute to the late Mr. Cecil Evans, tower master at Aldenham Parish Church, was rung in Western Australia. One of the ringers was Mrs. Heather A. Mann, who was taught to ring by the deceased ringer.

Those who took part in the peal of Havant Surprise Major at St. Cuthbert's, Wells, on February 4th, would like to associate with it the name of Eric Naylor, who was to have been the conductor. Eric had to withdraw on the Saturday morning because of his wife's illness and Percy H. Hull stood in at very short notice.

POMMIES TAKE OVER THE SHOW AT PERTH

According to "The Sunday Times," Perth, Western Australia, there are so many Pommies in St. George's Cathedral belfry that they have taken over the show. And Laith Reynolds, the captain, agrees, for half of his 20-strong ringing force are from England. When the English bellringers were in Perth in September, 1965, Tom Lock and A. Patrick Cannon told the authorities that the bells should be hung lower in the tower to as to reduce oscillation. They also recommended recasting into a ring of ten and new bearings. Ringing on that occasion was limited to two quarters—it was felt that a peal could not be attempted.

We now learn that a public appeal has been launched for \$15,000 (£7,500). If the appeal is successful the bells will be shipped to Loughborough and recast into a ring of ten with a tenor about 15 cwt in D against a tenor of 22 cwt in E flat. The scheme is to hang the bells 12 feet lower in two tiers—six on the bottom and four above. This will reduce the strain on the tower.

MR. F. C. MOGFORD RINGING AGAIN

Mr. F. C. Mogford, of Pensford, Bristol, is ringing again, and on February 5th he rang his first quarter since his most unfortunate accident last September, when he broke both legs. As it was, he had to ring sitting on a stool, as the plaster was only taken off on February 1st, and he cannot yet bend one leg. Compton Dando, where he rang, has a ground-floor ring and, for the time being, his ringing will be limited to such towers, as he cannot yet climb stairs.

Through "The Ringing World" Mr. Mogford desires to thank all ringers who came to see him while he was in hospital.

LONG WEDDING PEAL

If the length of the peal was the extent of the affection of the band, then the 10,080 Plain Bob Major rung by the Manchester University Guild at the Church of the Sacred Trinity, Salford, on February 4th, indicates that Dr. David Baker and Miss Norma Coom are exceedingly popular with the Guild. The peal lasted 5 hours and 23 minutes and was the longest for the Guild and for all the band. The happy couple were married earlier in the day and it is probable that they have been honoured by the longest wedding peal on record.

BANKRUPTCY IN IDEAS

There was once a peal-ringing band Where a "first" in a method was planned. When success duly came They were beat for a name Until the conductor called "Stand"

If you do not believe it, see Surprise Methods, C.C.C. 1964, No. 201.—D.B.

A LIMERICK IN SIX-SPICED

A ringer renowned for his yells Was quite handy with "spiced" on six bells Surfleet and Beverley He joined up quite cleverly With London, York, Cambridge and Wells.

Try your hand at composition to introduce more methods. I have another one which has nine methods in it.—D.B.

BOLTON BRANCH'S NEW ACTIVITIES

At the annual general meeting of Bolton Branch, Lancashire Association, on January 28th, it was decided to hold a series of Branch evening practices in addition to the normal monthly meetings. As far as possible these are to be the ordinary weekly practice of the tower chosen, augmented by as many visitors as possible. It is hoped that this will help to introduce to the rest of the Branch these towers whose members do not at present attend meetings.

Alternating will be visits to the towers with few or no ringers at all, to keep the bells going.

The first meeting was at Bolton Parish Church on February 6th, when ringers from Bolton (Holy Trinity), Leigh and Westhoughton joined the local band for their weekly practice.

The next is to be at Holy Trinity, Bolton, on Friday, February 17th, and future meetings will be arranged to suit the convenience of all concerned. It is to be hoped that these practices will be supported by visitors and residents alike, as the extra effort of arranging them will otherwise be wasted.

AN UNSUNG MEMBER

After the peal at Barrow-on-Humber, Lincs, on January 30th, in honour of the 80th birthday of Mr. Albert E. Fowler, the band, along with other Barrow ringers, were entertained at his residence. This provided an opportunity for Guild officers to express admiration and thanks to Eddie, as he is affectionately known, for 60 years of faithful service ringing and church membership.

This is probably the first time that his name has appeared in "The Ringing World," but his service to his church has been of great value. All Guilds and Associations have their unsung members, and it is well that at times they are given rightful thanks. That Eddie might be spared many more years to continue his service ringing was the sincere wish of all present, writes the Master of the Lincoln Guild.

SUFFOLK TOWER'S PROBLEM

An appeal may soon be launched to restore the 14th century church at Kersey, near Haulleigh, Suffolk. The cost is estimated at £9,300. At the moment the "Friends" of the church are raising money for the re-hanging of the bells and have about £700 towards the £2,000 needed for the job. "With a repair bill of £9,300 for general church restoration," writes our correspondent, "it does not look as if the bells will be overhauled just yet, unless something unexpected happens."

ON SYDNEY TV

The two elder sons of Mr. and Mrs. Tom Goodyer, of Sydney, N.S.W., had a ten-minute interview on Sydney TV in the Children's Programme—"My Hobby." Philip explained lucidly how bells were rung and showed various exhibits such as a bell rope and an old stay to explain his points. Afterwards the boys rang a plain hunt on four bells. In his congratulations afterwards the producer said the boys had the most interesting hobby he had come across.

CARY DISTRICT'S FIRST ANNUAL AT MILBORNE PORT

The holding of the Cary Branch annual meeting at Milborne Port on January 28th is believed to be the first District annual meeting to be held there. The Vicar, Preb. E. D. Buxton, who conducted the service with the Branch vice-chairman (Preb. O. H. Skipwith), mentioned that this was one of his first engagements since returning the previous day from a trip to Canada and New Zealand, that had taken him round the world.

At the business meeting, which followed tea, an apology for absence was read from the Branch chairman (the Rev. G. S. Robinson), and best wishes were sent for his recovery. A silent tribute was paid to the memory of Mr. C. Brown (Templecombe) and Mr. C. Thomas (Queen Camel), who had died during the past year. The secretary's report and balance sheet were adopted and a list of peals and quarter peals rung in the Branch during 1966 read out.

The officers were all re-elected as follows: Chairman, Rev. G. S. Robinson; vice-chairman, Preb. O. H. Skipwith; Ringing Master, Mr. D. M. C. Hill; secretary, Mr. L. McCreadie. Mr. John H. Gilbert, of Long Ashton, was nominated for the post of general secretary.

Certificates were presented to four South Cadbury members, and 17 new members were elected, coming from the towers of Barton St. David, Castle Cary, Ditcheat, Henstridge, Milborne Port, Templecombe and Wincanton.

Quarterly meetings (subject to permission) were fixed for Babcary in April, North Cheriton and Maperton in July, and Bruton in October, with next year's annual meeting at Wincanton. The Corporate Communion is to be held at Henstridge, with Branch practices at North Cadbury, Stoke Trister, Corton Denham and Charlton Mackrell.

South Devon was chosen at the venue for the Branch outing and approval was given to Mr. J. H. Gilbert's proposal that instructional courses in bellringing should be held in Somerset.

Thanks were accorded to the Vicar, organist, tower captain and the ladies who had prepared and served tea.

A return was then made to the belfry, about 60 ringers being present.

RINGING PART OF UNIVERSITY RAG

The Rag Committee of University College of Wales, Aberystwyth, are this year making a special effort for the Royal National Institute for the Blind. A quarter peal was rung on the steps of Capel Seilo. Donations in support will be acknowledged by David E. P. Watkins, 13, Terrace Road, Aberystwyth.

IN MEMORY OF A DOG

It is not often we have quarter peals to mark the passing of a dog, but such a quarter peal was rung at Abingdon, Berks, on February 6th, in memory of "Scamp," aged 14 years. The memorial inscription reads: "In Memoriam Rectori canis, nomine Scamp, qui aet 14 ann. A.D. iii, Kal. Feb. ob."

CHILCOMPTON'S PROGRESS

Following a recent report that the Sunday service band at Chilcompton had entered the field of Spiced Surprise Minor ringing, we are now able to report further that this band rang an excellent peal of 16 Surprise Minor methods involving 98 changes of method on February 6th. The conductor was Adrian P. Beck. It is understood that the next attempt will be for 20 methods.

ANCIENT SOCIETY OF COLLEGE YOUTHS

Preliminary Notice

Meeting in Northamptonshire on May 20th. Ringing at Kettering, Northampton and Daventry. Lunch will be arranged. Full details later.—J. G. A. Prior. 1009

Mr. R. Kingsley Mason informs us that in his 300 peals he has rung 153 Surprise Major and three Bristol, not one. Also in the peal of Leicestershire Surprise Major (page 103) the composition was by the late Albert J. Pitman, and not as submitted.

The use of the single in Surprise methods has in recent years become a commonplace procedure; and a device that would, years ago, have caused the purists to uplift disputatious voices has now been quietly accepted.

Whatever the musical advantages secured by this means it can be acknowledged that the single has brought some variety to compositions of Royal and Maximus that have hitherto tended to be somewhat limited in scope. In the case of Surprise Maximus there is the very practical benefit of being able to ring 5,042 changes instead of 5,280.

These touches show the application of the single on a small scale, but they may suggest to the curious some further experiments in the use of this call.

In each case, rounds appears two rows after the backstroke lead at the Wrong. The 1,250 of Yorkshire provides an exact quarter of 5,000, and for securing a convenient quarter peal of Surprise Royal the benefit of the single is obvious.

HEREFORD GUILD

The annual meeting of the Bridgnorth Branch was held at Bridgnorth on February 4th. Ringing in the afternoon was at St. Mary's and at St. Leonard's in the evening. The service at St. Mary's was conducted by the Rector, the Rev. G. Abel.

Tea, very kindly provided by the wives of St. Leonard's ringers was served in the Old Grammar School. At the subsequent meeting Mr. Alan Jones was re-elected Ringing Master. Mr. Tranter (of Madeley) Deputy Ringing Master, and Mrs. Joan Bennett secretary/treasurer. Mr. A. Elsmore agreed to continue as auditor, and Mr. F. C. A. Bennett Branch member of the Hereford Guild Committee. An encouraging feature of the meeting was the number of young ringers present. J. B.

A painted board with a red border was recently found at the Whitechapel Bell Foundry containing the above five peals rung in West Surrey about 150 years ago. They were all conducted by William Baldwin whose age is given as 22 in the peal painted on the wall of Holy Trinity belfry, Guildford. Some names have been obliterated by age.

"METHOD STRUCTURE IN CHANGE RINGING"

This unique work, second in the series entitled
"RINGERS' MANUAL OF REFERENCE"

is complete in itself. Its subject is treated both for beginners and for advanced practical ringers. It is not a textbook on specific methods, of which several exist; but it shows, for the first time, the detailed structure of the general plan of change-production, by types of methods, traced from 3-bell (basic) to 12-bell stages.

Well bound in an attractive stiff cover in blue with gold lettering the book measures 8" x 6½" x 1" and contains nearly 300 of such large pages with some 80 figures or diagrams, also 8 double-page and 5 single-page "charts." Included are series of "definitions" and "axioms" listed to serve as an index. Paragraphs throughout are numbered for ready cross-reference. Chapters close with test-questions and indication of answer-location.

This book is very highly commended, especially by leading members of the Exercise, including the Rev. Canon Gilbert Thurlow, M.A., Fredk. Sharpe, F.S.A., and E. C. Shepherd. (See "Ringing World" 1966 pp. 339 and 490). Much of the work was hitherto unpublished in book form.

The whole book has been planned for issue at minimum cost of production, being thereby cut from pounds to shillings, so as to be within the reach of all. The price, packing and postage included, is only 17/- (seventeen shillings), and your copy comes by return of post from: College Publications, 40, Parkstone Avenue, Southsea, Hants. 897
